

Instructions for Creating an Eposter

All poster presenters are **STRONGLY** encouraged to submit an ePoster that summarizes their poster. EPosters should be a PowerPoint presentation with a maximum of 10 slides that provides a summary of the poster.

EPoster submission is now open and will close on Monday, October 15. No ePosters will be accepted after the closing date.

EPosters should have the following file naming structure when uploaded:

Poster#-PresenterLastName

For example: 316-Smith

7-Johnson

49-Parker

Submissions can be uploaded in PowerPoint format or PDF. It is preferred that the PowerPoint presentations are converted to PDF before uploading.

Do **not** submit videos, animations or transitions.

Using Pictures

- JPEG (.jpg) images are the preferred file format over GIF (.gif) or Bitmap (.bmp) to achieve optimal quality.
- Resolutions higher than 72 dpi will not enhance quality, but will only unnecessarily increase poster file size.
