The Oldest New Idea to Improve CF Care
Improvement in CF Care

Opportunity Statement

• Assertion
• Vision
• Key Strategies
• 7 Worthy Goals
7 Worthy Goals:

1. “Patients and families are full partners with the CF care team in managing the disease. Information and communication will be given in an open and trusting environment so that every patient/family will be able to be involved in care at the level they desire. Care will be respectful of individual patient preferences, needs, and values.”

2. “… normal growth and nutrition.”

3. “… maintaining lung function.”

4. “… acquisition of respiratory pathogens.”

5. “… for complications of CF.”

6. “… transplantation and palliative care.”

7. “… access to appropriate therapies and treatments.”
Maren Batalden, MD, MPH
Associate Chief Quality Officer, Cambridge Health Alliance
Associate Director of Graduate Medical Education for Quality and Safety, Cambridge Health Alliance
Assistant Professor of Medicine, Harvard Medical School

We can handle everything except naming your baby.

University of Minnesota Masonic Children’s Hospital
Coproduction is about patients and professionals making better use of each other’s assets, resources, and contributions to achieve better outcomes or improved efficiency.
Drug Development Pipeline

To advance drug development and a search for a cure, the CF Foundation has contractual agreements with several companies to receive royalties related to drugs that are developed as a result of CFF funding. Any royalties we receive are used in support of our mission.
Better partnership leads to better outcomes
The Influence of the Patient-Clinician Relationship on Healthcare Outcomes: A Systematic Review Analysis of Randomized Controlled Trials
